## Résumé, exhibitions, biography, awards, appointments

Kathryn graduated from the University of West of England in 1988 with a degree in Fine Art. Her career has developed as a result of awards, appointments, exhibitions, the growth of a significant and loyal band of collectors and, of course, first time buyers. Throughout these 30 years, she has developed and applied new and exciting techniques of mark making to her work. She has also engaged in a range of exhibition formats, broadening her popularity and resulting in an active online and social media presence.
